Who we are

One accountable partner. Many ways to deliver.

A Zambian-owned supply and technology company that brings together the technology, equipment, materials and logistics institutions need — from a single, dependable source.

TayantPay Technologies Limited was built to close the distance between what institutions need and what single-sector suppliers can deliver. We operate as a **general dealer and solutions provider**, assembling the right combination of products and services to get each client's job done — on time and to specification.

Our roots are in digital finance: the founders' work began in 2020 with cross-border payments for Zambian students abroad. Incorporated in October 2023, the company has grown into a **tender-focused supplier** serving a national road agency, a public-service financial institution, an international research organisation and private companies. We are an **HP Business Partner** and a **ZICTA-registered dealer** in electronic communication equipment.

Vision

To be Zambia's most versatile problem-solving partner — the first call for institutions that need technology, equipment, materials or logistics delivered reliably across Zambia and the SADC region.

Mission

To provide integrated, dependable solutions across technology, equipment and industrial supply — with fair pricing, fast turnaround and hands-on service, so clients can focus on their core mandate.
