Who We Are

TayantPay Technologies Limited is a Zambian problem-solving enterprise built to close the gap between what government and private institutions need, and what conventional single-sector suppliers can deliver. Where many companies specialise narrowly, TayantPay operates as a general dealer and solutions provider — assembling the right combination of technology, equipment, materials and logistics to get each client's job done.

Our work spans four practical realities of doing business in Zambia today: the need for modern, reliable financial technology; the need for IT infrastructure that can be bought or rented depending on budget; the need for promotional and marketing materials that represent an institution well; and the need for dependable suppliers of construction materials, plant equipment and vehicle spares that keep public infrastructure projects moving.

We have built our reputation by taking on problems other suppliers turn away, and following through with the same discipline whether the client is a government agency, an international development programme, or a private business. TayantPay has been operating since 2020, beginning with cross-border payment solutions for Zambian students abroad before growing into the diversified trading and technology group it is today.

Our Vision

To be Zambia's most versatile problem-solving partner — the first call for institutions that need technology, equipment, materials or logistics delivered reliably, wherever they operate in Zambia and the wider SADC region.

Our Mission

To provide integrated, dependable solutions across financial technology, IT infrastructure, promotional materials and industrial supply — combining fair pricing, fast turnaround and hands-on service so our clients can stay focused on their core mandate.

What We Do — Our Business Divisions

1. Financial Technology (FinTech) Solutions

Through our TayantPay platform, we provide stablecoin-powered digital wallets, fiat-to-stablecoin conversion (ZMW to USDT via the Tron blockchain), peer-to-peer exchange, and cross-border remittance services, with a growing footprint across Zambia and the SADC region. We are advancing a Bank of Zambia payment system licence to formalise digital wallet and payment gateway operations for the Zambian market.

2. Bespoke IT Systems & Software Solutions

We design and deliver custom software solutions tailored to a client's operational workflow — from internal management systems to digital records and payment integrations — rather than forcing institutions into rigid, off-the-shelf software.

3. IT Equipment Supply & Rental

We supply and rent computers, tablets, monitors, printers and related IT hardware to institutions, giving clients the flexibility to purchase outright or rent for the duration of a project. Our rental model has supported programme-based clients, including a tablet-device deployment for field data collection.

4. Marketing & Promotional Materials Supply

We source and supply branded promotional and corporate merchandise — flasks, caps, bags and other branded items — for government and private institutions running staff engagement, public awareness or corporate branding initiatives.

5. Building & Construction Materials Supply

We supply building blocks, wall-fencing materials, water pumps and related construction inputs to government infrastructure projects, including delivered work for the Road Development Agency (RDA).

6. Automotive Spare Parts Supply

We source and supply vehicle spare parts to keep government and institutional fleets operational, with an established supply relationship covering multiple RDA depot locations.

Our Track Record

TayantPay's diversified model has allowed us to serve government agencies, development programmes and private institutions across our different business divisions. To date, TayantPay has successfully completed over 10 tenders and supply contracts for government and private clients. The engagements below are a sample of this work — one of the many projects we have delivered for clients and institutions — and are not an exhaustive list of everything we have completed:

Client / Institution	Nature of Engagement	Status
Road Development Agency (RDA)	Supply of construction materials (wall-fencing blocks), a booster pump, and vehicle spare parts across multiple stations	Completed — repeat engagements
Public Service Microfinance Company (PSMFC)	Supply of branded corporate merchandise (flasks, caps, bags)	Completed
Population Council (Kenya) — MCF Programme	Rental of 30 tablet devices for field data collection (two rental cycles to date)	Ongoing

Financial Snapshot

Since March 2026, TayantPay has processed a cumulative total of ZMW 690,299.24 through its company accounts, reflecting steady growth across our government and private-sector engagements over a seven-month period. As we formalise our Bank of Zambia payment system licence and expand our tender portfolio, we expect this trajectory to accelerate.

Period	Cumulative Turnover (ZMW)
March – June 2026	132,895.70
June – September 2026	557,403.54
Total (Mar – Sep 2026)	690,299.24

Our Work in Motion

A glimpse of TayantPay's operations — sourcing, warehousing, quality checks and last-mile delivery for our institutional clients.

Dispatch of equipment and consignments for client delivery, Lusaka.

IT hardware stock — desktops, monitors and printers held for institutional supply and rental prior to client handover.

Warehousing and inventory management for bulk stock awaiting distribution.

Consignment in transit to a client site.

Quality inspection of tablets and accessories prior to client handover.

Why Institutions Work With Us

- One partner across sectors — technology, equipment, materials and logistics — reducing the number of vendors an institution must manage.
- Demonstrated delivery for government and institutional clients, including the Road Development Agency, PSMFC and Population Council.
- Flexible commercial models — outright supply or equipment rental — matched to a client's budget cycle.
- A Zambian-owned enterprise with local market knowledge and the agility of a small, responsive team.
- Actively pursuing international standards and financial-services licensing, including a Bank of Zambia payment system licence, to support larger institutional and government contracts.
